

FAN GRILLABSTRACT OF THE DISCLOSURE

5

The present invention provides a grill 10 for use in electrical equipment comprising a fan. The grill 10 comprises a substantially planar portion 90 that provides protection for (and indeed from) the blades of a fan and a handle 100 that provides means by which the grill may be held. The substantially planar portion 90
10 may comprise an opening 94 that facilitates stacking of a plurality of like grills 10.
